COMBUSTION PRODUCTS

SOLUTIONS FOR INDUSTRIAL
KITCHENS, FRYERS & OVENS

Resideo - Honeywell Home have the solution for OEM's and distributors for the industry of kitchens, fryers & ovens

Universal Pilot Burners

- For use in Natural and LP applications
- Peel-N-Seal Packaging label with cross reference and installation instructions on outside of packaging
- Target-style pilot burner
- Three position adjustable hood

VR8300 Universal Standing Pilot Gas Valve

- Combination gas controls for use in 24 Vac, 50/60 Hz, gas-fired, standing pilot appliances with capacities from 30 to 300 cfh natural gas
- Includes safety shutoff, manual valve, two automatic operators, pressure regulator and pilot adjustment
- Universal replacement for most Honeywell and competitive standing pilot valve models
- Dual-redundant gas valve design

Silicon Carbide Igniters

Resideo is offering a full line of direct replacement 120 V silicon carbide igniters. The igniters work with most configurations of brackets, element shapes, connectors, and lead wire lengths. Made in the USA and backed by a 2-year warranty, these igniters will help distributors to simplify their ordering.

VS820 Millivolt Combination Gas Valve

- Self-powered automatic control
- Use with 750 mV pilot generator
- Easy to install and service with all the adjustments and connections accessible from the top of the control
- 34 to 425 cfh capacity

SmartValve Pilot Burner

The Q3450 SmartValve pilot burners provide pilot flame ignition and sensing for SmartValve intermittent pilot systems. They consist of replaceable igniter-flame rod assembly, bracket assembly, pilot target, ground electrode, orifice assembly, compression fitting and spring clip. The igniter lights the pilot burner. The flame rod proves the pilot flame and the pilot flame lights the main burner

SmartValve™

- Family members cover the full range of opening characteristics (slow, normal, fast) and ignition systems (hot surface, hot surface pilot)
- Universal kits include natural to LP conversion and 3/4" to 1/2" bushings
- Universal family increases service efficiency and reduces truck and warehouse inventory

Q3400 Hot Surface Pilot/Sensor Assembly

The Q3400A Igniter-Flame Rod Assembly replaces the original igniter-flame rod assembly in the Q3450 and Q3480 pilot hardware used with the SV9500 and SV9600 SmartValve system. The Q3400A has a unique keyed plug connector that will only fit the SV9500/SV9600 systems.

Q313 Replacement Thermopile

- Variety of lead lengths
- Push-in clip, split nut and adapter assembly included
- Male nut connector for Pilotstat included
- Generates 750 mV in a millivolt heating system

Q340A Universal Thermocouple

- The Q340A, with a maximum amount of copel, is a premium thermocouple with the long life and durability that your customers demand
- Variety of lead lengths
- Push-in clip, split nut and adapter assembly included
- Male nut connector for Pilotstat included
- Generates 30 mV in standing pilot systems

Q390A Thermocouple

- Variety of lead lengths
- Push-in clip, split nut and adapter assembly included
- Male nut connector for Pilotstat included
- Generates 30 mV in standing pilot systems
- For situations where a utility grade thermocouple is the best solution, the Q390A is the right choice

Direct Spark Ignition

Ignition Modules provide electronic control of direct spark ignition systems, with external spark transformers, used on gas-fired furnaces, boilers, conversion burners and other heating appliances.

Enhanced S8910U Universal Hot Surface Ignition Module

Now you can fix more problems while carrying fewer parts. Field-selectable dip switches expand the cross reference from 650 to over 800 controls. A three-color LED makes trouble-shooting quick and easy. We've also added microammeter ports for testing the igniter.

S8610U Universal Intermittent Pilot Ignition Module

- Flame voltage auto-adjusts for consistent operation
- Usable in both single-rod or dual-rod systems
- Field-selectable pre-purge and ignition trial timings
- Simple diagnostic LED helps direct service effort
- Direct pilot flame current readout with standard micro-ammeter
- Plug in vent damper connection simplifies installation
- Replaces over 400 Honeywell and competitive models

Relays/Contactors/Transformers

Resideo offers a complete range of relays, contactors and transformers for all your residential and commercial HVAC applications. All Resideo products are designed to exceed safety and industry life cycle standards. In order to meet these criteria, a statistically significant sample of Resideo products are tested to failure and to our stringent qualification requirements. This testing methodology enables Resideo to verify that these products will exceed industry standards.
